## Super Pies

Just in time for the big game, our food critic Max Jacobson delivers seven pizzas that are tough to beat

By Max Jacobson

Every holiday has a traditional dish to go along with it, and for Super Bowl Sunday the main course has to be pizza. To help you narrow down the list in the phonebook, here are seven of my favorite pies in town. Note that only Metro and Amore deliver, so be sure to call in your order early.

### Sammy's Woodfired Pizza

These crusts aren't as flavorful as others in this list, but the wood oven makes their texture appealing and the toppings are deliciously unusual. The best choices are found in the Artisan Thin Crust Pizzas section, where the crust is crunchier. My favorite here is the Feta Manouri, made with Macedonian sheep's milk cheese, a touch of orange blossom honey and fresh oregano. Five locations; visit [sammypizza.com](http://sammypizza.com) for the one near you.
